4. In a two-go-round event, the contestant competing in the first performance will take their second head during the final performance. The contestant competing in the second performance will also compete in the third performance. Slack and performances will be counted equal in designating performance positions. Working order will be reversed from first go-round to second go-round.

DRAWING OF LIVESTOCK

1. If possible, a judge should inspect the horses and bulls to be used at an event before the draw. This procedure will help eliminate crippled, injured and unnumbered or illegible numbered animals.
2. Bucking horses cannot be used in both the bareback and saddle bronc riding at the same Performance.
3. Event livestock is drawn so that any contestant has as much chance as any other contestant of drawing any particular head of livestock.
4. Livestock is to be drawn at the following times:
 - A. One (1) to four (4) hours before a paid performance.
 - B. Immediately after a paid performance, if slack is to follow performance.
 - C. Not more than one (1) hour before a designated slack.
5. Any contestant is entitled to watch the draw. If only one judge and the secretary are present at the appointed draw time, an effort should be made to find one or two contestants to witness the draw.
6. The secretary will prepare unfolded, uniform size livestock draw numbers to correspond with the numbers on livestock to be drawn from a round container with smooth interior.
7. The numbers represent the entire herd of animals eligible for use in a particular event or go-round at an event and no animals may be added after the draw begins.
8. Draw and post show one day at a time. Draw only one performance or one slack at a time.
9. The judge, by rule, does the drawing of livestock. If judges draw by any other method than those described by ARA rules, they may be fined and/or suspended.
10. The judge draws through the herd until each contestant in that performance or slack has been drawn a head of livestock. This procedure may necessitate drawing through the herd several times. For example, there may be thirty (30) cowboys entered and only ten (10) bulls in the herd. The herd would have to be drawn through three (3) times before each contestant is drawn a head of livestock. To insure there is an even workload on each member of the herd, no member of the herd may be drawn twice until all members have been drawn once, under most circumstances.
11. Stock must be drawn for every entrant whether contestant shows for event or not.
12. No contestant will be allowed to compete twice on the same head of livestock at an event except for re-rides or reruns offered under certain circumstances.
13. All animals are to be drawn once before any are drawn twice, all are drawn twice before any are drawn three times, etc., unless circumstances in rough stock events when contractor features an animal cause such.
14. No animal will be competed on twice in any one performance, except in case of re-ride or rerun. Unless a medical reason is given such as animal is injured before performance.

15. A contractor may feature two (2) animals in each rough stock event per performance (even outs on animals is waived). When an animal is featured in a specific performance, the secretary will prepare numbers corresponding to the total number of contestants in that performance and the judge will draw a cowboy for the feature animal.

Example:

Featured Bareback Horses are #T1 and #75 Contestant Numbers 1, 2, 3, 4

Bareback Contestants

1. John
2. Kevin
3. Steve
4. Harold

Judge draws contestant number 2 from container, so Kevin will receive horse #T1. Judge draws contestant number 1 from container, so John will receive horse #75. Then, animal draw numbers for the remainder of the eligible herd, excluding #T1 and #75, will be placed in the container and draw will resume as normal.

16. No sick or injured animals, whether discovered before or after the draw, will be permitted to be used in competition.

17. In the riding events, if an injured animal is discovered after the draw, that animal will be eliminated from the draw for the remainder of that event and a replacement for said animal shall come from the re-ride pen. If the re-ride herd has been exhausted, the animal will be replaced from the balance of the herd not out that performance.

DRAWING OF RE-RIDE STOCK

1. All re-ride animals are to be drawn during the regular designated draw from the remainder of the herd not drawn in that specific performance, unless the Executive Board/ Board of Directors decides otherwise.
2. Two (2) re-ride animals should be drawn in each of the riding events for each performance and slack.
3. All animals turned out will automatically be re-rides in turn out order and are to be used before any animals previously used during that performance.
4. Once a horse or bull has been contested on in the re-rides, that animal will not be redrawn for a re-ride again, unless the stock contractor puts the animal back in the herd.
5. Any stock drawn for a re-ride that is injured will automatically be removed from the re-ride pen.

ELIMINATION OF LIVESTOCK

1. Any ARA official desiring elimination of livestock will personally meet with the company officials involved. Objectionable animals to be eliminated from the draw will be agreed upon by both the event director and stock contractor. If agreement cannot be made, it will be referred to the Executive Board/ Board of Directors who will act as the arbitration board.
2. Animals in the riding events may be disqualified from competition for the following reasons:
 - A. Being marked by either or both judges twelve (12) points or below the previous three (3) times out in competition.
 - B. Any animal with a known history of falling.
 - C. Chute fighting animals.
 - D. Any animal in apparent poor health.
 - E. If animal stops, falls or runs off three (3) times in one fiscal year, he may be taken out of the draw by the event director.
3. If animal receives three (3) re-rides in one fiscal year due to poor bucking performance, animal will be eliminated from the draw in that event at events and the finals for the remainder of fiscal year.

EVENT JUDGES

1. All judges must be approved by the ARA Board of Directors, hold a current ARA card and be a member in good standing to judge an event. Judges must purchase a full membership. Judges will be required to attend a clinic if Board of Directors deem necessary.
2. Any person seeking to be approved as a judge by the ARA Board of Directors must comply with the following:
 - A. An inexperienced person must pass the judges test set forth by the ARA, work with approved judges for three (3) ARA first-sanctioned events and then submit a letter of recommendation from the approved judge(s) with a request to be approved by the Executive Board/ Board of Directors to the ARA office.
 - B. An experienced judge must pass the judges test set forth by the ARA and submit a letter of recommendation from an approved ARA stock contractor with a request to be approved by the Executive Board/ Board of Directors to the ARA office.
 - C. Judges may apply once a year to take the judging test after the appropriate recommendation letters and (\$25) twenty-five-dollar testing fee per year is received by the ARA office.
3. The ARA office will maintain a list of qualified judges. A judge may be removed from the approved judges list once a reasonable cause is presented to the Executive Board/ Board of Directors. The removed judge must appear before the Executive Board/ Board of Directors before reinstatement will be made.
4. All judges will know and understand all rules governing event as set forth in the ARA rulebook and any valid ground rules enacted and will be responsible for enforcing and upholding the same. The judge will be responsible for reporting any rule violations to the event secretary for recording purposes. All decisions, not in conflict with ARA rules, will be left to the discretion of the judges. Judges have the authority to fine members and/or contestants for rule infractions and/or unprofessional behavior. Fines by judges may not exceed two hundred dollars (\$200) per infraction.
5. Judges will be at the event grounds at least four (4) hours prior to the first performance of an event and at least two (2) hours before each performance thereafter, unless other arrangements are made with the stock contractor.
6. Under no circumstances will a stock contractor be allowed to judge their own stock. Stock contractor's failure to comply will be fined \$100 per performance
7. When judges' vests are furnished, judges are responsible for the care and maintenance of same and will wear them during all paid performances of the event at which they judge. If no vest is furnished, it is preferred all judges wear a solid white shirt.
8. Judges are required to mark/score all rough stock animals' (bulls/horses), whether having been ridden for a qualifying time or not, for finals points and year end results.

Should anything happen to a judge during the course of a event so they could not or would not judge the remainder of the event in riding events or flagging the field, the secretary will divide the total purse in proportion to the number of contestants that have finished contesting in each event up to the point the judge became incapacitated and pay off accordingly. A new judge will be elected for the remainder of the events affected and those events will be judged and paid off as if it were another event. If a new judge replaces a line

judge, his replacement will not affect those timed events. In cowgirls barrel racing, if the electric timers are used and work for the entire event, or the flag judge does not change, the event will be paid as one round.

JUDGING METHODS

1. Judges must total their own score sheets and remain with event secretary until complete payoff is announced. Judge must sign his individual score sheet.
2. When scores have been posted on the secretary's master sheet following each performance, a copy of the judges' sheet will be posted where it can be seen by all contestants with livestock drawn and judges' markings within thirty (30) minutes after each performance and/or slack for contestants inspection.
3. Judges decisions are final if in accordance with the ARA rules.
4. In all cases of dispute, the event will proceed without delay under the existing rules of the ARA and the matter of said dispute will be settled by the judges. Judges are hired to judge the total event in all events in their entirety and may consult with one another in case of a dispute.

6. Fouls: Anytime a contestant is fouled in any event, they must declare themselves immediately or take that marking or time.
7. Faulty Equipment: All equipment used by contestants is their responsibility and no re-rides or reruns will be given due to faulty equipment. Borrowed equipment is accepted as contestants own.
8. It is suggested that if some error or question arises during the event that the announcer be advised to announce over the speaker that contestant may receive a re-ride or rerun.

JUDGING METHODS / RIDING EVENTS

2. Judges markings are to be from one (1) to twenty-five (25) on rider and one (1) to twenty-five (25) on animal, having a total of fifty (50) on each side; making the highest possible score of one hundred (100), with full spread to be used. The rider and animal will be marked separately; marking the rider according to how much the rider spurs the animal, and the animal will be marked according to its performance.
3. Judges markings will be final. There will be no changes. Judges will be subject to a fine per offense for changing markings. (Notation must be made to explain why change; example, marking the wrong line, etc.). 10. Both judges will be required to use a stopwatch during all riding events. At events using both left hand and righthand delivery bucking chutes, the judge on the "Latch Side" will have the official time. The time on the watch of the "Hinge Side" judge will serve as a backup in case of a malfunction. In an event that the watch of the "Hinge Side" judge is used to determine a qualified ride. Extreme close calls should go to the benefit of the contestant. The use of a watch by both judges will also assist in justifying calls on the other rule infractions such as loosing stirrup, touching animal, etc. After judges have established their sides for an event, no changes may occur.

COWGIRLS BARREL RACING

1. Contestant must begin run from mouth of gate or alleyway and move in a forward direction (cannot enter arena and set horse), if gate or alleyway is in the center of the barrel pattern. Contestants cannot be required to begin run from an off centered gate or alleyway. When there is a split or double alleyway, contestants may be required to run from mouth of alleyway, if they have a choice of either alleyway. When center alleyway is used, it will be posted or told to contestants during the contestants meeting whether gate will be open, closed or barrel racer's option to run out. The bars in the alley must be covered with a minimum of four (4) inches of dirt or be removed.
2. There will be a sixty (60) second time limit for barrel racer to complete her run after official time begins.
3. Barrels are to be set on the inside of each stake in a cloverleaf pattern.
4. Judges are responsible for measuring, staking and marking of the barrels and score line, before the beginning of the first performance from such stakes, to determine if stakes are still in their original places. Measuring is to be done with tape measure. Judges must turn in barrel stake and score line measurements, in feet and inches, to event secretary for recording before the first performance.
5. Electric timers will be staked and reset over that stake each performance. Stakes must be under the middle of timers. Judges will be responsible for setting up electric timers.
6. Before setting the barrel pattern, take into consideration where the electric timers are to be set. Allow enough room to get cord (if corded) to announcer's stand or suitable area. Make sure there is access to power if needed. Do not set the course too wide for the electric eye to line up.
7. Measurements for the standard barrel course shall be 90 feet between barrels 1 and 2; 105 feet between barrels 1 and 3, and 2 and 3; 60 feet from barrels 1 and 2 to score line; 75 feet from score line to the end of the arena for stopping room. To set the course, measure the length and width of the arena to determine if a standard course can be set. Measure score line and stopping distance, then set barrels 1 and 2. Using a 100 foot measuring tape with 5 feet of rope or string added; make an arc on the ground from barrel 1 to 3, then from barrel 2 to 3. Set the marker for barrel 3 where the arcs cross, being sure that barrel 3 is at least 20 feet off the back of the arena fence. Measure score line from both barrels 1 and 2 to be sure that the distance is equal for contestants going to either the right or left first. Barrels 1 and 2 will be set a minimum of 15 feet off the arena fences. Standard course should be used wherever possible. If arena size does not permit standard course, measurements in proportion to the size of the arena shall be used, shortening the distance between barrels. The standard course lengths cannot be exceeded. If score line is less than the maximum 60 feet, there must be a minimum of 45 feet from the chutes or arena fence for stopping room, unless the arena has a center gate or alley and contestants are allowed to run out the gate and the score line must be a minimum of 25 feet.
8. When staking barrels for a center alleyway, the pattern will be staked starting with the alleyway and measuring equal distance from each side of gate (not the arena).
9. The arena must be worked (not hand raked) after at least fifteen (15) barrel racers have run or deemed necessary by the board or the producer with approval from the board. Arena must be worked before each performance and before slack. During slack, arena must be worked after same number of positions offered in performance, not to exceed fifteen (15) barrel racers.
10. A contestant will not be disqualified or penalized for touching a barrel.

11. If contestant knocks barrel over, there will be a five (5) second penalty for each barrel knocked over.
12. If all barrels are standing when a contestant crosses the score line after completing a qualified run, it is considered a qualified run, even if a barrel falls after she is flagged.
13. The use of an electric timer is required and must be backed up with a flag and two (2) timers. The manual times are to be averaged between the two (2) timers and recorded in hundredths. If electric timer fails three (3) times during one performance or two (2) times on the same contestant, times will revert to hand flagged times and event will be paid as one go-round with original stopwatch times to be used on all contestants. If the electric timers do not function properly resulting in hand flagged times, the stock contractor will receive a warning for the first offense. The stock contractor will be fined one hundred fifty dollars (\$150.00) for offenses at events after first offense in a one-year period.
14. There shall be no talking to flagman, timekeepers or judges during the barrel racing event.
15. Both judges are required to be present during the barrel racing event with one judge flagging the line and the other judge watching to see that a cloverleaf pattern is run. Flag judge will flag nose of horse at start and finish of the race.
16. The flagman is not to leave his place, unless it is a visibly marked place.
17. If a barrel is knocked down, the judge not on the flagging line will reset the barrel in proper place. Judges may appoint responsible persons to replace barrels in proper position if barrels have been knocked down by a contestant during a contest run. The same person does not have to be appointed each performance.
18. In a two go-round, two runs may be had in one night if there are at least five contestants left for the remaining performances. However, there will not be two runs during any one paid performance unless requested by management.
19. Barrels must be regulation fifty-five (55) gallon metal barrel size and enclosed at both ends. No pads or tires may be used on or around barrels. Barrels must be at least two colors; no solid color barrels. No plastic or rubber barrels may be used.
20. After the barrels have been staked, no one will be permitted to go around the stakes or barrels (ie. "setting the pattern") during any warm-up for the duration of the event. Contestants must not turn or circle within fifteen (15) feet from the stakes prior to their run. Exception being exhibition runs which will be made after all contestants runs in that performance. If a contestant makes an exhibition run prior to competing, she must make her competition run on a different horse. (Note: When all performances are full, no exhibition runs will be allowed by contestants who are up at a later performance of event.) The contestant will be fined and/or disqualified for any infraction of these rules.
21. It is suggested that if arena is used for other barrel racing events, that during the event, the barrels be staked at least fifteen (15) feet from stakes used in these events.
22. Contestant will be disqualified, if after crossing score line and being flagged by the flagman, she re-crosses score line before completion of a true cloverleaf pattern.
23. Reruns in the barrel race will be taken at the barrel racer's discretion, either at the end of the barrel race, or immediately following the performance. The same rule applies to the slack. Reruns will be taken either at the end of barrel race or immediately following the slack. If contestant chooses to make their rerun immediately after the event, the ground must be worked regardless of the number of horses that run during the performance.
24. Rerun to be given to a contestant at judges' discretion should contestant be fouled. Any penalties incurred during original run will be added to rerun except when rerun is given due to electric timer failure to operate or barrels being placed in incorrect position. If an entire performance is rerun because of barrels not being in original places, then all contestants will run over and any penalties are disregarded.
25. No one on horseback, besides contestant, will be allowed in the arena during the barrel racing.
